BRIDGETON, N. J., Aug. 2.-The funer-

City railroad collision took place to-day.

Everywhere could be seen the clothes and

badges of mourning, and many sad scenes

were witnessed as the relatives of the dead

watched the heavy clods of earth fall in

the graves that shut their dead from sight

forever. Lodges turned out in full force

be generally observed as a day of mourn-ing and it is thought there will be a gen-eral cessation of business.

SUNDAY WITH THE INJURED.

Lizzie Branin Still Unconscious Since

the Wreck.

ATLANTIC CITY, N. J., Aug. 2 .- No ad-

ditional deaths have yet occurred as a re-

death roll still stands at forty-four. There

is a possibility that it may remain at that

figure, but it is only a remote one. At the

sanatorium this afternoon it was reported

that the fifteen patients still there were

doing as well as could be expected, and,

while there was a bare chance of pulling

them all through safely, the odds were

against at least three. They are Frank

Morele, of East Orange, N. J.; W. John-

son, of Bridgeton, and Lizzie Branin, of

ness since the collision, despite reports to

the contrary. She is the pretty nineteen-

year-old girl who was engaged to be mar-

charces are now in favor of his ultimate

recovery. It must have been a dull Sun-

it could not be found. The watch of Philip

H. Goldsmith, the Bridgeton clothier, who died hand in hand with his wife, bears on

the face the picture of his wife and two boys. It had stopped at 2:40.

The inquest to-morrow will be held on

the bodies of Goldsmith and one or two

others, by way of formality. The railroad

officials will be called first, including Su-

perintendents A. T. Dyce, of the Reading.

Albert Pinkerton, conductor of the Read-

NEW YORK, Aug. 2.-Bourke Cockran returned last Saturday from Europe by the steamer Paris. Mr. Cockran did not forget American politics during his trip, and he has evolved a plan by which he thinks the defeat of the Chicago candidates may be compassed. Speaking of the situation he

of the country, exceeding in importance the crisis of 1860. The secession movement was but an attempt to divide this country between two governments, each of them designed to protect property within the limits of its jurisdiction. The movement launched at Chicago is an attempt to paralize industry by using all the powers of is a question of morals as well as of politics. No political convention can issue

"Do you mean that you will actively oppose the Democratic party, or abstain from active support of it?"

"In a contest for the existence of civilization no man can remain neutral. Whoever does not support the forces of order, aids the forces of disorder. If I can do anything to thwart a movement, the success of which I should regard as an irreparable calamity not only to this country, but to civilized society everywhere, I shall certainly do it."

"What do you think of Tammany's action in indorsing the ticket?" "I simply cannot understand it. They

strongly opposed the platform at Chicago on the ground that it was an assault on the integrity of the Nation. They decline to have not changed their opinion of it. Yet stands on it, and whose election will mean that the platform which they have themselves denounced as a singular combination of lunacy and villainy shall be incorporated into the statute laws of this country." "Will you support Major McKinley out-

right, or do you favor the nemination of another Democratic ticket?" "I believe that all Democrats who are thoroughly in favor of sound money that they place the defeat of Bryan above the interests of any organization or party, should meet in convention for the purpose of considering the form and method by which they can give the greatest efficiency to their opposition. For my part I do not they ally or politically, would serve any useful purpose. "That end could be attained by the adoption of a platform declaring for sound money; against extravagent appropriations; in department of the government; in favor of a tariff for revenue only, ample for the Republican party and the Populistic socialventions; in favor of that American liberty which can be maintained by so limiting the power of the government that it can never interfere with the daily concerns of law-abiding citizens. The plank of pressing importance in such a platform is, of course, currency plank. Now the mere election of McKinley will be the defeat of the silver movement.

"Your obvious policy, then, would be to indorse the McKinley electors?" "Precisely. The Democrats, who will plank by the election of McKinley, will yet constitute an opposition to the Republican party the day after election, based on principles which are certain to be ultimately adopted by the American people. What is needed, therefore, is not a new ticket, but a pitiful study as they hearkened to the | mistakable language the cardinal features Some simply gazed with longing of the party faith, and which, while indorseyes into vacancy; others, with rapt looks | nig McKinley electors, will provide for a and quivering lips, formed the words of really Democratic opposition to the Mcthe hymn in unison with the chimes, and | Kinley administration during the period of some wept. BIRMINGHAM, Ala., Aug. 2.-It is evident to-night that the Populist-Republican leaders do not expect their State ticket to be elected to-morrow, but are directing all for the purpose of seating Goodwin as Governor on the allegation that he had been defrauded and also electing a Populist or Republican Senator. William Vaughan, State Republican chairman, said to-night that he believes that a fair election will of fraud in the black belt counties, but he believes the fusionists will control the Legislature on joint ballot and that if they do Goodwin will be the next Governor. Captain Johnston thinks Goodwin wil not carry exceeding thirteen counties. Secretary Miller, of the Democratic campaign committee, to-night estimates that the Democras will have twenty-one out of thirty-three members of the State Senate, "I regard it as the gravest in the history | and will elect seventy-two out of one hundred members of the House certain, with the probability of making it eighty-one. CINCINNATI SUBURBS BADLY DE-MORALIZED SATURDAY.

Mercury Up to 112 in the Shade. and No Prostrations.

CINCINNATI, Aug. 2 .- Many people here to-day visited the scenes of the hurricane of vesterday in the northern suburbs. Th public did not know what a narrow es cape the city had till to-day. With the wind blowing sixty miles an hour and a rainfall of two inches within two hours, the weather official says the city was fortunate in escaping with only property damages. This was due to there being no funnel-shaped clouds, no twisting winds or whirlwinds. While the dark clouds burst, the wind swept straight across the city and its suburbs. It unroofed hundreds of buildings that were occupied, but all the buildings demolished were either old structures, barns and sheds or buildings in process of construction. All the railways are entering the city to-day on time, but some of the street railways and the telephone lines are still disabled. Some congregations held services in new locations to-day owing to damages to their edifices, but the general opinion expressed everywhere was that of thankfulness that the situation here and elsewhere in southern

Ohio, Indiana and Kentucky was no worse. The only death reported was that of Charles Bouhe, who picked up a telegraph wire that had blown into his yard on the Carthage road. A number of horses were killed in stables down. The weather has been pleasant today and Sunday was devoted to clearing up and repairs everywhere. The baseball park had a large force of men at work before the afternoon game. The telegraph telephone and railway companies had all available men out on their lines.

Killed During a Storm. BIRMINGHAM, Ala., Aug. 2 .- At Columbus City, Ala., Maynard Covans was escorting Misses Dovie Proctor and Della Bishop, daughters of prominent families, out for a walk, when a cloud gathered. A heavy rain and windstorm came up, when the trio stepped into an old building to keep from getting wet. The storm increased in fury until the building lapsed and all three were caught in the debris. Covans and Miss Proctor were in-

The showers, however, have proven to be disastrous instead of beneficial. The heavy dew, the rust and the cotton louse have all affectd the weed. No rain has fallen in two weeks, and the heat has been intense, causing the bolls to prematurely open and shed. Replies from nearly one thousand points in the State been received, and 75 per cent. of these show that the condition of cotton is extremely precarious. It can safely be said that the crop is 25 per cent, short, and on an average twenty days earlier than usual, and unless rain falls within five days the crop will be cut short 30 per cent.

WASHINGTON, Aug. 2 .- Senator Jones. of Arkansas, chairman of the national Democratic committee, returned to this city to-day from his trip to the West, which included St. Louis during the Populist convention week; also a visit to Mr. Bryan at Lincoln and the Senator's home in Arkansas. The Senator expects to remain in the city during the coming week for consultation with such Democratic leaders as will go to New York city to attend the meeting of the national committee on Aug. Yesterday Tom David, of North Alabama street, one of the fast young riders of the city, clipped six seconds off the Broad Ripple track record. He was paced by Deputy and Huffman on a tandem and Cameron and Craig on single wheels. He made the first half in 1:02 and the mile in 2:091/2. He had a flying start. David is about twenty years of age and has been riding a wheel for several years. Two or three years ago he showed good speed, but it was not until this year that he began competing on even terms with the best amateur riders of the State. He has won some first prizes on the Broad Ripple track and several seconds.

Chief Consul Thompson Resigns. Maro R. Thompson has resigned as chief consul of the Indiana division of the L. A. W. Under his management the Indiana division has grown from an almost unknown position in the national body to a place among the leaders. This result has been secured through hard work on the part of the chief. The work of the office from the start was very heavy and increased to such an extent that about a month ago it became necessary to open headquarters and employ suitable assistance. This makes it impossible for Mr. Thompson to further fill the office on account of private business. His resignation makes Mr. W. L. Krietenstein, of Terre Haute, formerly vice consul, his successor as chief of the division.

AVENCE THEIR DEAD COMRADES.

at Brown Hoisting Works to Prevent Trouble To-Day.

CLEVELAND, O., Aug. 2.-A startling Brown strike, which comes from an apparently reliable source, is to the effect that the strikers are arming themselves and drilling. It was said to-day that forty of the strikers had organized a company last Saturday, elected a captain and purchased revolvers. The company drilled Saturday evening and it was announced that the purpose of the men was to avenge the death of the two men who were shot at different times in conflicts between union and nonunion men.

James O'Connell, the head of the machinists' union, who was here in charge of the strike and who helped to bring about the settlement under which the men returned to work, came back to Cleveland today. He was very much surprised and chagrined to learn that the men had struck the second time. He said he believed the company had entered into the agreement with the men in good faith and he was satisfied that the company intended to live up to its agreement in every respect. Four companies of militia are on duty a the works to-night and a large force of police will be on hand in the morning to guard against trouble when the nonunion

This completes the shutdown of the Rockefeller mines in this city. Nos. 6, 7, 8, 9 and 10 shafts now employ just enough men to keep the mine clear of water. In a large number of mines mines allowed to fill with water. Gogebie range mines are practically all shut down field. There are less than 1,000 men at work on the range where at one time over 8,000 few months of idleness will find hundreds of families in destituton. The several minnig companies have allowed their employes all unoccupied lands for use as "Pingree farms," but the army worms have de-stroyed the last hope of the miners of having at least vegetables to keep body and soul together the coming winter. The

poor fund is exhausted and there are a large number of outstanding orders. The idle miners and their families are therefore Dropped the Charges. CHICAGO, Aug. 2.-The special commit tee of the Trades and Labor Assembly appointed some time ago to investigate the

charge against H. C. Payne, of Milwaukee, regarding his hostility to trades unions and labor organizations, presented its remended that no action be taken. The report met with vigorous opposition, but was finally adopted. This action was influ enced by the exhibition of a letter pur-porting to be from labor leaders in Chicago, but which was not read, and which the officers of the meeting refused to make public. It is said to have recommended that the assembly take no action, as a de cision adverse to Mr. Payne would jeopard ize labor interests in Milwaukee. Mr. Payne, as a member of the national executive committee, has charge of the Republican headquarters in this city.

Striking Tailors to Be Arrested. NEW YORK, Aug. 2 .-- The striking tailors held a large and enthusiastic meeting today at the Windsor Theater. Among the speakers were Meyer Schoenfeldt and Joseph Barondess. At the headquarters of the contractors, leader Benjamin Duezan said that most of the shops would be open Monday morning. He insisted that the majority of strikers would return to work during the week. He also announced that many warrants would be issued to-morrow for the arrest of strikers who, he claimed have indulged in rioting. Seven or eight of the contractors and their friends, it is asserted, have been assaulted by the strikers and additional trouble is feared.

Labor League Takes a Hand. PITTSBURG, Pa., Aug. 2.-The United Labor League at a meeting to-night decided to take up the fight of the employes of the Consolidated Traction Company for the recognition of the organization. A committee was appointed to confer with the officials of the company, and if they refuse to recognize the organization the league will assist the traction employes in the event of a strike against the new rules recently promulgated by the company.

On the Brookville Road Six of Twenty-Two Democrats Are Openly

for Sound Money.

## BIG DEMOCRATIC LIE REFUTED

TOWN OF CLERMONT GIVES GOLD

A BIG MAJORITY.

Crawfordsville Pike Farmers Closely Studying the Question, and Will Vote Intelligently.

Trips were made on bicycles yesterday by reporters for the Journal out the Brookville and Crawfordsville roads to obtain expressions from the farmers relative to their views on the financial question. On the two preceding Sundays trips were made out other roads leading from Indianapolis, and with the return yesterday expressions have been obtained from farmers and polls taken on nearly every road leading from Indianapolis, This covers a radius of twenty miles from the city, and a large per cent. of the farmers in this territory have been quoted and their names published to substantiate their statements. The result of these trips positively refutes the claims made by the silverites that their theory is making headway among the agriby the farmers in Marion and adjoining counties, sound money has made marked gains; more than three times as many Democrats among the farmers bolting for sound money than Republicans bolting for

The two roads covered yesterday show the same uniform gains. One reporter went to Carrollton, Hancock county, nineteen miles out on the Brookville pike. Of the twenty-two Democratic farmers he interviewed fourteen were for silver, six were for sound money and two were doubtful as to how they will vote this fall. Of the fifteen Republicans fourteen were for sound money and one was for silver, but the silver man insisted that he was going to vote for McKinley. Another reporter went out the Crawfordsville road to Brownsburg, in Hendricks county. He found seventeen Democrats and two Populists for silver, while five Democrats and one Populist were doubtful as to how they would vote. Three Democrats declared that they would not vote at all for the Chicago ticket, while one Republican was in doubt as to how he

The Democratic organ a few days ago published a statement that there were only a half dozen sound money men at Clermont. Henry W. Turpin, who owns a hotel at Clermont, told a Journal reporter yesterday that he had taken a poll of the town and found thirty-two villagers for sound money and only twelve for free silver. Below are given results of the trips

in detail: . About 8:30 o'clock yesterday morning a Journal reporter, bound to Brownsburg for the purpose of interviewing the farmers along the route, in order to ascertain how they stand on the money question, crossed the bridge across Fall creek at the end of Indiana avenue and started Crawfordsville free gravel road. The day was all that could be wished for, and made riding a wheel as pleasant as anyone could desire. The roads were hard, firm and in good condition, and, more desirable than all, the route was comparatively level, only two hills of any size being encountered. The interviewer made no stops until after he had crossed the bridge over White river

and passed through Emerichville. The first farmer after Emerichville was left behind was not at home, but his wife gave his name as William O. Oliver. He lives on a three-acre garden tract, and, according to his wife, and always has been a Democrat, but she was unable to say how he stood on the money question, as he is a man who does not discuss politics.

J. O. Griswold, the next farmer approached, has a ten-acre farm and is a sound-money man, who has always voted the Republican ticket. "I'm for sound money and McKinley," he said, "t we want good money and plenty of it. The last presidential candidate I voted for was Harrison, and I never voted the Democratic ticket in my life, and I don't think that I

Mr. Griswold's son, Henry Griswold, is also a Republican, and will vote for sound money the coming election, according to the statement made by the father.

STILL STUDYING THE QUESTION. On the adjoining farm of thirty acres lives August Miller, who is a doubtful Democrat and who sits on the fence (politically speaking) ready to slide either way. When asked how he stood on the money question, he replied: "That's something that I will not tell you, for I do not know myself, I can say, though, that the times are so hard at present that I can hardly afford to hire a hand to help me on the place. Yes. I voted for Cleveland and have been a Democrat ever since I came to this country from

Sophus Keiser, another Dane, employed on the place, cannot speak English, but his employer says that he is a Democrat and will vote for free silver.

Joseph McDaniel, who lives on the next farm, was not at home when the interviewer called, but his son, William Me-Daniel, gave the desired information, but his testimony was hardly necessary, as a portrait of McKinley, which hung in the window, told the tale. "My father and three brothers-Grant, Frank and Joseph. jr .- together with myself, are all Republicans, and we will vote for sound money this fall," he said. When asked for his reasons for so voting he said: "The present standard is good enough for me, and I think that it will be better for the people than free

silver. At the next house Joseph Brunemer, a laborer, was encountered. He says he has always been a Democrat and that he voted for Cleveland the last campaign. "I'm not educated in money matters," he said, "and I now lean toward free silver, but I cannot say how I will vote this fall, for I den't

Two voters were found on the farm of J. S. Flack, who is the next farmer on the route, and at this place the honors are even. J. S. Flack said: "I always have been a Democrat, and I will vote the same ticket again this year and support free silver. I cannot give you my reasons for my present stand just now, for I have not studied the question at all." says that William Sutton, who is a tenant on the farm, is a Republican and has expressed himself as a supporter of so noney. As the interviewer was leaving Mr Flack said: "I believe in protection and plenty of it. I suppose you will call that Republicanism? Well, that is what it is, even though I am a Democrat. Jacob Votz, a German dairyman, who is

as deficient in his English as the interviewer was in German, resides on the next farm. It was finally ascertained that he is a Democrat. He said he wanted both gold and silver, and as much of it as he
